

I have been a resident of Yorktown Va for 3 years and have listened to KLOVE (FM 90.7 WKZP) exclusively for that length of time. I cannot explain fully in words what this station means to me and my family. At a time of negative lyrics invading our young peoples mind it is great to have a station that I don't have to worry about what is being said or sung. Bumping KLOVE off the air for the LPFM stations would be a huge mistake to the community, especially in the influencing of our young impressionable minds of our youth. It is vital to have stations like KLOVE on the air to counter the negativity heard on all the other stations. Please think twice before expanding the LPFM stations over the translators. If this happens, my radio will be forever off in my house and car.
